Man Camps:

Temporary Portable Housing Units. They set up and dismantle easily. They come in various designs and will house anywhere from 6 people to a few hundred.

Chesapeake Regional Rig Worker Housing and Training Facility

Modular workforce housing provides comfortable accommodations

ASL has extensive experience delivering workforce housing (sometimes referred to as "man camp" accommodation) products worldwide. Whether you need short-term or permanent modular camps, our pre-fabricated and relocatable modular buildings will solve your shelter challenges, even in the most remote locations and extreme climates.

ASL's workforce housing and remote camps line is as versatile as your requests demand.

Rugged modular buildings can be rapidly deployed to remote camp locations

Our fleet of modular workforce housing buildings can be quickly deployed to your remote camp worksite and removed when the project is over. For sale or rent, these units are sturdy and well-designed to withstand extreme temperatures.

ASL's modular remote camp solutions include:

- Cat Camps
- Kitchen/Diner
- Recreation Complex
- Staff Quarters
- Sleepers & Washcars
- Wellsites
- Drill Camps
- Major Workforce Camps

Choose from a variety of floor plans and configurations or talk to us about custom designs to meet your exact requirements.

Custom Design Your Workforce Housing

Need something more permanent? If you have a unique or specific shelter or "man camp" need, ASL's talented engineering team will work with you to develop and manufacture the perfect custom workforce housing solution. ASL has extensive experience in designing, engineering and manufacturing remote camps around the world.
