

1. Color both sides of your pinwheel
2. Cut along the bottom dotted line and along the diagonals starting at each corner.
3. Using a hole punch, punch holes at the indicated areas. ●
4. Gently bend each punched hole toward the center hole, once all holes meet, fasten with a paper fastener
5. Put end of fastener in straw

Place in flower pot or garden and watch your pinwheel take bloom.

MAKING YOUR OWN PINWHEEL

Here's a craft project that will allow children a chance to participate in your community's "Pinwheels for Prevention" activities. This activity can be used in schools, daycare centers, after-school programs, church groups, etc.

Pinwheel Wind Collector

Materials

- A push pin
- A square piece of construction paper (about 8.5" by 8.5")
- A sharpened pencil with an eraser
- Scissors

Procedure

1. Lay the square paper flat on a table and draw a line diagonally from each corner to the opposite corner.
2. Mark the center of the square where the two lines cross and punch a small hole through it with the pencil tip.
3. Next, cut along each line stopping about an inch from the hole in the center of the square.
4. Take the pin and punch a hole in the top left corner of each of the four flaps. (No two holes should be next to each other.)
5. Pick up a flap at a punched corner and carefully curve it over toward the center hole, securing it with the pin.
6. Repeat this for the other flaps.
7. When all four flaps are held by the pin, carefully lift the paper without letting the flaps unfurl.
8. Lay the pencil flat on a table and carefully push the point of the push pin into the side of the eraser.
9. Now your pinwheel is complete and ready to go.
Pick up the pinwheel near the pencil point and let it catch the wind.
